

Contractor broom finishing a concrete sidewalk/curb

SUREBROOM

The premier, high strength, thin, broom finish concrete overlay for extreme high traffic areas, such as: parking lots, parking garages, ramps, stairwells, commuter stations and walkways. Designed to make old concrete look and perform like-new again, it transforms worn, spalling and weathered substrates into fresh, uniform and defect-free surfaces.

- ECONOMICAL CONCRETE RESTORATION
- HIGH COMPRESSIVE STRENGTH
- SHORT DOWNTIME/FAST TURNAROUND

BENEFITS

FAST, ECONOMICAL REPAIR

Don't rip out old concrete; use this cost-saving alternative to restore your concrete, and make it look and feel brand new. While specifically designed for broomed finish concrete, it can also be used to replicate a variety of textures and designs.

ATTRACTIVE & DURABLE RESULTS

Designed to resurface high traffic concrete without compromising color, design or texture. When properly applied and sealed, will produce an attractive, high compressive strength, highly durable surface with a long life-cycle and low maintenance requirements.

CONCRETE SURFACE PROTECTION

Make your concrete surface even stronger with this 6,100 PSI resurfacing overlay. It will also help provide slip resistance and proper coefficient of friction on outdoor surfaces that are subject to rain, ice or inclement conditions.

High Traffic Staircases

High Traffic Walkways

Heavily Traveled Parking Structures

TESTING DATA

COMPRESSIVE STRENGTH - ASTM C-109

28-days 6,128 PSI (42,251 kPa)

FLEXURAL STRENGTH - ASTM C-348

28-days 1,575 PSI (10,859 kPa)

TENSILE STRENGTH - ASTM C-190

28-days 910 PSI (6,274 kPa)

TWO FORMULATIONS

SUREBROOM™

White Portland Cement-Based

SUREBROOM GRAY™

Gray Portland Cement-Based
