

DK 500

DK 500 is available in three formulations, delivering the ideal attributes for all your thick build coating applications. Sourced from the finest epoxy resins available, this 100% solids epoxy produces reliable quality control and cost effectiveness.

- CRYSTAL CLEAR FORMULATIONS
- THICK BUILD
- 3 CUSTOM FORMULAS

BENEFITS

IDEAL APPLICATIONS & USES

Compatible systems and applications include: Clear Top Coat, Floor Leveling, Metallic, Quartz, Flake, and Three-Dimensional Flooring.

PROJECT SIZE PACKAGING

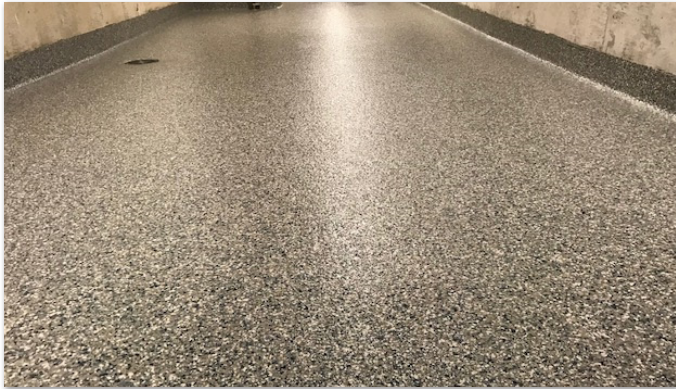

From a residential garage to a manufacturing facility, DK 500 is packaged in convenient 3-gallon, 15-gallon, 165-gallon kits.

EASY APPLICATION

Chemically engineered to reduce common inconsistencies in traditional 100% solid epoxies such as; bubbling, flow-ability, and open time. Choose your ideal Part "B" to gain these additional attributes.

Stained Concrete

Flake

Metallic

CUSTOMIZE YOUR PART "B"

ECONOMY
